Heir Apparent
About QIMC and its INVESTMENT POLICY

Qatar Industrial Manufacturing Company (QIMC) was established in 1990 with 20%:80% government-private equity interests respectively. The establishment of QIMC was in fact a clear manifestation of the particular attention given by the State of Qatar to the issue of the private sector’s participation in the process of the country’s economic development through investing in small and medium scale industries.

QIMC’s initial authorised capital was set at QR 200 million (US$ 55 million), and was fully paid by 2002. In 2006, capital was increased by 50% to QR 300 millions. In 2009, capital was increased by 20% to QR 360 millions. In 2010, capital was increased by 10% to 396 millions.

QIMC started business in May 1990 only to become within a short period of time one of the pioneering companies in the filed of small and medium scale industries in Qatar. Far from being confined to the State of Qatar, QIMC’s activities extended to other GCC countries such as Saudi Arabia, Bahrain and Oman.

Currently, QIMC has equity interest in 14 operational projects in various industrial sectors including chemicals, petrochemicals, construction materials and food processing. QIMC is also currently investigating the economic feasibility of a number of other projects in collaboration with other local and foreign interested parties.

QIMC’s investment strategy is essentially driven by the fundamental principle of investing in economically viable industrial projects that utilize locally/regionally available natural resources/intermediate products. QIMC also views its investment activity in the wider economic development context, and for that reason, it strives to maximize the macroeconomic benefits resulting from its investment activity to the national economy in terms of employment opportunities for the national labour force, transfer of modern technology and contribution to the country’s balance of trade.

QIMC welcomes the participation of all investors and technology know-how holders in joint ventures in viable small/medium sized projects.

Dear Shareholders,

On behalf of myself and my colleagues in the Board of Directors and staff of Qatar Industrial Manufacturing Company, I would like to convey to you my warmest regards and take this opportunity to thank you for your continuous support to the Board of Directors and Executive Management.

It also gives me great pleasure to submit to you QIMC’s Twentieth Annual Report containing the Company’s balance sheet and income statement for the financial year ending 31st December 2010 as well as a summary of its achievements in 2010 and its future plans.

Despite the slowdown in economic activity in the wake of the worldwide economic recession in 2010, we in QIMC, with the grace of God, still managed to achieve outstanding results, with net profits reaching QR 202.5 Million, against QR144 Million in 2010, or by an increase of 40.6%, while shareholders equity increased to QR 1,144 Million against QR960 million in 2009, or by an increase of 19.2%.

The year 2010 has also witnessed very important achievements related to the implementation of new projects and the expansion of existing ones. The first of these achievements is represented by the completion of civil works of Qatar Aluminum Extrusion Co, the start of the plant equipment erection and the project is expected to be commissioned in May 2011 with a production capacity of 8,000 Tonnes/year. The second achievement is represented by the start-up of KLJ Organic Qatar for the production of Chlorinated paraffin wax and Caustic soda, which is expected to be commissioned by the 1st Quarter of 2013.

Furthermore, Qatar Acids Company has signed an agreement for the increase of its Sulfuric Acids production capacity from 10,000 to 43,000 Tonnes/year and Amiantit-Qatar Pipes Company has increased its Fiber Glass Pipes production capacity from 15,000 to 17,000 Tonnes/year.

QIMC continued its ceaseless efforts to find suitable and economically viable new investment opportunities which it can implement in the future in collaboration with interested local, regional and international partners. In this regard, there are currently a number of such projects under study, and which, it is hoped, will be approved in 2011.

Increasing production in and raising the productive capacity, where viable, of our group of operating companies and the establishment of economically viable new projects and the corresponding new investments such activity entails, will undoubtedly enhance the effective role of our Company in the national economy and increase its growth rate beside increasing the Company’s earnings and its shareholders equity.

It is pertinent to add that none of the achievements of our Company would have been possible without the support of the shareholders, government and semi-government department and institutions and the dedication of the Company’s staff, to all of whom I express my thanks.

Above all, I would like to take this opportunity to extend my sincere thanks and gratitude to The Emir, H.H. Sheikh Hamad Bin Khalifa Al-Thani, The Heir Apparent, H.H. Sheikh Tamim Bin Hamad Al-Thani, The Prime Minister, H.E. Sheikh. Hamad Bin Jassem Bin Jabor Al-Thani, The Deputy Prime Minister, H.E. Abdulla Bin Hamad Al-Attiyah, The Minister of Energy and Industry, H.E. Mohammed Saleh Al-Sadda, and all members of our wise Government who have spared no effort towards the attainment of this country’s progress and prosperity.

AbdulRahman Mohd. Jabor A-Thani
Chairman

Investment Distribution of Projects (Operational & Under Implementation) according to Industrial Sector
Qatar Jet Fuel Company (QJet) is a joint venture company promoted by Qatar Industrial Manufacturing Company (QIMC) and Qatar Energy (WOQOD). The main activity of the company is to sell Aviation Fuel at Doha International Airport. The major commercial airlines are the main customers of Qatar Jet Fuel Company.

- Total investment: QRs. 63 million
- Operations Start Date: August 1990
- Turnover (2010): 384 million US gallons/year
- Location: Doha International Airport
- Telephone: +974 44621504 / 44621505
- Fax: +974 44622736
- Post Box: 22244, Doha, Qatar
- E-mail: qatjet@qatar.net.qa

Qatar Metal Coating Company (Q-COAT) is a joint venture company promoted by Qatar Industrial Manufacturing Company (QIMC) and Qatar Steel Company (Qasco). Q-COAT’s main activity is to produce epoxy coated steel bars (8-40 mm) which are mainly used in the construction of buildings.

- Total investment: QRs. 42 million
- Operations Start Date: April 1992
- Turnover (2009): 1,000,000 tons/year
- Location: Mesaieed Industrial Area
- Telephone: +974 44779247 (Marketing)

COMAPANIES in Operation

National Paper Industries Company

National Paper Industries Co. (NAPICO) started its operation in June 1991, the oldest tissue converting company in Qatar owned by Qatar Industrial Manufacturing Co. The main activity of the company is converting of high quality Facial Tissues, Toilet Rolls, Kitchen Rolls and M Tork Rolls. The company has established and applies a quality system for its operation and it holds an ISO 9001-2008 Certificate for Quality Management System. Qatar is the main market for its products with exports to other GCC countries as well.

- Total investment: QRs. 6.5 million
- Operations Start Date: October 1991
- Turnover (2006): 4.3 million boxes of Facial Tissue/year
- 7.6 million Kitchen & Toilet Rolls/year
- 240,000 M Tork Rolls
- Location: Salwa Industrial Area, Street No. 2
- Telephone: +974 44600567 44600682
- Fax: +974 44600685
- Post Box: 40631, Doha, Qatar
- E-mail: admin@napico.com.qa

Qatar Sand Treatment Plant

Qatar Sand Treatment Plant (QSTP) is wholly owned by Qatar Industrial Manufacturing Company (QIMC). The main activity of the company is to produce treated (washed) sand for construction and agricultural uses.

- Total investment: QRs. 150 million
- Production Start Date: October 1992
- Capacity of plant: 12 million tons/year
- Location: Umm Bab Road
- Telephone: +974 44029111 / 44914777
- Fax: +974 44914780 / 44029199
- Post Box: 19926, Doha, Qatar
- E-mail: qstp@qatar.net.qa
Qatari-Saudi Gypsum Industries Company (QSG), is a joint venture company promoted by Qatar Industrial Manufacturing Company (QIMC), Qatar National Cement Company (QNCC) and National Gypsum Company (NGC of Saudi Arabia). The main activity of the company is to produce gypsum powder for various purposes. Major construction companies are the main customers of QSG. The major markets are Saudi Arabia and Qatar, in addition to other GCC states.

Total investment: QRs. 73 million
Production Start Date: June 1993
Capacity of plant: 135,000 tons/year
Location: Salwa Industrial Area
Telephone: +974 44602165 to 68
Fax: +974 44602169
Post Box: 22052, Doha, Qatar
E-mail: qsg@qatar.net.qa

Qatar Clay Bricks Company (QCBC) is a joint venture company promoted by Qatar Industrial Manufacturing Company (QIMC) and other private sector Qatari companies and individuals. The main activity of the company is to produce Red Clay Bricks using locally available clay.

Total investment: QRs. 86 million
Production Start Date: October 1997
Capacity of plant: 12 million/year Clay Blocks and Hordi for ceiling
Location: Salwa Industrial Area
Telephone: +974 44603487
Fax: +974 44603481
Post Box: 1569, Doha, Qatar
E-mail: qcbcqatar@qatar.com.qa
National Food Company

National Food Company (NAFCO) is a joint venture company, promoted by Qatar Industrial Manufacturing Company (QIMC) and Hassad Food. The main activity of the company is to process, pack and market various food products especially dates.

| Total investment | QRs. 50 million |
| Production Start Date | January 2000 |
| Capacity of plant | 800 tons of dates products/year |
| Location | Central Market, Doha |
| Telephone | +974 44684981 |
| Fax | +974 44683581 |
| Post Box | 30100, Doha, Qatar |

COMPANIES in Operation

Gulf Formaldehyde Company

Gulf Formaldehyde Company (GFC) is a joint venture company promoted by Qatar Fertilizer Company (QAFCO), Qatar Industrial Manufacturing Company (QIMC), United Development Company (UDC) and AMWAL. The main activity of the company is to produce urea formaldehyde-85 and related products.

Amiantit Qatar Pipes Company Ltd.

Amiantit Qatar Pipes Company Limited (AQAP) is a joint venture company promoted by Qatar Industrial Manufacturing Company (QIMC), Saudi Arabian Amiantit Company, and Trading & Agency Services Ltd. (TRAGs). The main activity of the company is to produce Fiber Glass Pipes and Fittings up to 4m in diameter.

Total investment: QRs. 63 million
Stated Production: May 2008
Start Date: 2007
Capacity of plant: 15,000 metric ton/year
Location: New Industrial Area, Street 41, Salwa Road
Telephone: +974 44114873/4/6
Fax: +974 44114875
Post Box: 40194, Doha, Qatar
E-mail: aqap@qatar.net.qa
Gasal is a joint venture company promoted by Qatar Petroleum (QP), Qatar Industrial Manufacturing Co. (QIMC), Air Liquide, and Al France. The main activity of the company is to produce Industrial Gases (Nitrogen and Oxygen) to supply the industries in Mesaieed Industrial City (MIC) and Ras Laffan Industrial City (RLIC).

- **Total investment**: QRs. 283 million
- **Production start date**: Q1 - 2008
- **Capacity**: 405 tpd of nitrogen, 300 tpd of oxygen
- **Location**: 8th Floor, Salam Tower, Doha, Qatar
- **Telephone**: +974 44934325
- **Fax**: +974 44934326
- **Post Box**: 24983, Doha, Qatar
- **E-mail**: info@gasal.com.qa

---

Qatar Paving Stones (QPS) is wholly owned by Qatar Industrial Manufacturing Company (QIMC). A plant designed to produce premium quality Paving Stones and Kerb Stones of all colours and patterns.

- **Total investment**: QRs. 65 million
- **Production start date**: H1, 2009
- **Capacity of plant**: 1.8 million m2/year of paving stones and 300,000 mts./year of kerb stones
- **Location**: Umm Bab Road, adjacent to Qatar Sand Treatment Plant
- **Telephone**: +974 44027111/129/130/131
- **Fax**: +974 44027110

Projects under **IMPLEMENTATION**

**Qatar Aluminium Extrusion Company**

Qatar Industrial Manufacturing Company (QIMC) promoted this project along with selected other Qatari investors. The new company has been registered and it is currently under implementation. It is expected to start commercial production by mid of 2011. The finished products will be manufactured from aluminum logs and will include a variety of non-colored (mill finished) and colored (powder coated) aluminium profiles.

**KLJ Organic - Qatar**

The project is expected to produce high quality Chlorinated Paraffin Waxes (CPW) for the export markets. These products are used as plasticizers in the regional widespread downstream plastic industries or in flame-retardant paints. The project will also produce four other useful by-products i.e. Caustic soda (NaOH solid), Hydrochloric acid (HCl 32%, liquid), Calcium chloride (CaCl2 38%, liquid) and Sodium hypochlorite (NaOCl 10%, liquid). The company has been incorporated and it is under implementation with KLJ Organic Ltd. of India as a technology provider and a partner with 49% equity share. The plant is expected to start commercial production during the first quarter of 2012.

**Investors:**
- **QIMC** : Qatar Industrial Manufacturing Co.
- **SIIL** : Salam International Investment Co.
- **Alutec** : Aluminium Technology Auxiliary Industries
- **QREIC** : Qatar Real Estate Investments Co.
- **AGR** : Aluminium Gulf Ray
- **QOIC** : Qatar Oman Investments Co.

**Location:** New Industrial area, Doha – Qatar.

**Investment:**
- Total: QR 72 million
- Annual production: 8,000 tons
- Expected to start: Q4-2010

**Contact:**
- Tel.: +974 44831199

Projects under STUDY

**Autoctaved Aerated Concrete (AAC)**
The project is expected to produce high Autoclaved Aetated Concrete (AAC) or Thermostone blocks, for the local construction sector to cater for the increasing demand for these insulating blocks and substitute for a large share of Qatar imports of this products. The project is currently under assessment with several international technology holders.

**Specialty PVC resins**
Emulsion PVC, PVC copolymers and Chlorinated PVC resins cater to the niche applications like Vinyl flooring, Artificial leather, Insulation foam, Vinyl wallpaper, Footwear, Tiles, Surface treatment agent, Calendaring, Pipes and fittings, etc. The project is under assessment with collaboration with an international technology holder.

**Ethylene diamines**
Ethylene Amines are used in pharmaceuticals, fungicides, fuel additives, epoxy, paper resins, surfactants, bleach activators, Polyurethanes etc. The project is currently under feasibility assessment.

**Thermal Ceramics**
Ceramic fibres like Spun fibre, Pyrobloc find extensive use in high temperature industries like steel, aluminium and petrochemical sectors. Talks are under progress with a reputed international company to promote a ceramic fibre plant in Qatar.

**Ferro silicon**
Ferro Silicon is an Essential raw material for production of Carbon Steel, Alloy Steel and Stainless Steel. Other end users are Casting Industry, Aluminum Silicon Alloy industry etc. Being a power intensive project, preliminary study is going on to assess the feasibility of such a venture in Qatar.

**Aluminium Dross Recycling & Refining**
This project will recycle the Aluminium Dross or solid wastes generated by the growing number of primary Aluminium smelters implemented in the GCC region. It will produce two marketable products to the international specs; Aluminium Sow Ingots and three grades of oxides used in the steel industry. This “green” project is expected to reduce substantially the disposal rate of these wastes in landfills. It is under assessment with a European technology holder willing to provide the technology for this promising project and to implement it as a stand-alone unit.

**Wood Plastics Composite**
This is a composite material made of inert fiber materials and plastic (WPC), which is expected to substitute the use of natural wood outdoor, in countries like GCC where the weather conditions are very harsh during the summer. The product is aesthetical with various, maintenance free, eco-friendly and has a longer life than wood, which is under environmental pressure. The project is under assessment with a European technology holder willing to provide the technology for this promising project and to have a Joint Venture with QPPC – a subsidiary of QIMC - where the project will be implemented as an add-on.
Company ACTIVITIES

QIMC OFFICIALS ATTENDED VARIOUS SEMINARS AND CONFERENCES DURING 2010, INCLUDING THE FOLLOWING:

“Qatari-Omani Joint Committee Meeting”: Chaired by H.E. Abdulla Bin Hamad Al-Attiya, The Deputy Prime Minister & Minister of Energy & Industry & Sh. AbdulRahman Al-Thani, Chairman of Committee, held on 03rd May 2010, Doha/Qatar.

“Machinery Supplier Exhibition, Germany”: High ranking officials of Q-Coat & Mr. AbdulRahman Al-Ansari, CEO of QIMC was visited the exhibition held on end of April 2010, Germany.

“Workshop organized by Hamad Medical Corporation”: A workshop was organized by Hamad Medical Corporation at Rumela Hospital on 01st May 2010. QIMC was the main sponsor of the function.

“Arab International Industry Form”: QIMC was the main sponsor of the Arab International Industry Forum and exhibition held on 25-26th, May 2010, Doha/Qatar.

“Industrial Investment Conference organized Ministry of Industry and QP”: An Industrial Investment Conference was organized by the Ministry of Industry and QP on 28th Oct. 2010. QIMC was one of the sponsors of conference.

“Qatar Acids Company expansion”: QIMC and FFIL of India signed a contract on 1st Dec. 2010 for the expansion of Qatar Acids Company, followed by a press conference.
